Glasgow, June 5, 2026

Annual report

Council activity

The council has had 7 ZOOM meetings since the last annual general assembly.

Scientific activities

- A manuscript comprising data from a European scientific collaboration, EUSUREX (NCT03923972), has been published:
  Lack of physiotherapy resources restricts exercise prescription for patients with chronic kidney disease – the European Survey on Renal Exercise (EUSUREX)
  Clyne N, Cupisti A, Grupp C, Kouidi E, Segura-Ortí E, Provenzano PF, Esteve-Simó V, Tripepi G, Zoccali C; EUSUREX Working Group. Clin Kidney J. 2025 Sep 17;18(11). doi: 10.1093/ckj/sfaf291. PMID: 41215781.
  The analysis of the data of the SF-36 questionnaire are ongoing. It is planned to publish this as EUSUREX Part II.

- A consensus statement by EURORECKD in collaboration with the EuReCa-M Working Group has been initiated:
  Exercise training in patients with chronic kidney disease to tackle cardiovascular risk burden: mind the gap
  Eight subchapters have been written by working groups consisting of members from both EURORECKD and EuReCa-M.

- A Cochrane review is underway on the effects of physical activity in kidney transplant people.
  The protocol is published.
